Preparing for Your Course

Textbooks/Course Materials

1. *Introduction to Psychology* (Cengage, 11th ed., 2016), by James W. Kalat.
There are several ways to access this book:
 - Option 1: The bookstore is selling a loose-leaf/online bundle. The bundle includes a Loose-leaf Version of the 11th edition, plus online access for the book and MindTap® Psychology for 1 term (6 months). **The ISBN is: 9781337127448.**
 - Option 2: Printed versions of the 11th and 10th editions of this book are also acceptable. Avoid purchasing any editions of the book that are older than the 10th edition.
2. *ZAPS 2.0: The Norton Psychology Labs*, an online digital resource by Ton De Jong and colleagues, allows you to experience various psychological phenomena firsthand, via demonstrations programmed by a team of Dutch psychologists (hence the sometimes awkward English) and presented over the Internet (see below for details). You will be required to complete a selection of these exercises during this course. ZAPS 2.0 is an online resource. The registration code for this website must be purchased separately through the publisher's website:
<https://digital.wwnorton.com/zaps2>. Approximate retail price: \$30.00.
