Course Options for High School Students

You may select from courses numbered between 1 and 99 (undergraduate, lower division), providing that all prerequisites have been met. Courses numbered between 100 and 199 (undergraduate, upper division) may be taken only with instructor approval, with the exception of one-unit courses. Courses are offered for college credit only.

Prerequisites

Many summer courses list prerequisites in their course descriptions. You are responsible for researching and determining whether you are eligible for courses. When in doubt, contact the department or the instructor for advice.

Fees

Current visiting student unit and enrollment fees apply. Textbooks are not included in the registration fee. Some departments charge course materials fees for specific courses. Courses involving science, computers, photography, and art may have lab, studio, or supply fees. Please note: Financial aid is only available for matriculating UC Berkeley students.
